Interview Questionnaire for Mental Health Patients – SithCare Channeling App

Opening Statement

“Thank you for participating. We are developing a mental health support application to improve accessibility and support for patients. Your responses are confidential and will only be used for academic purposes. You may skip any question or stop at any point if uncomfortable. There are no right or wrong answers; we simply want to understand your experience.”

Section 1: Background Information (Ice Breaker)

Q1. Could you tell us a little about yourself? (Age range, occupation/student status, and anything you'd like to share about your lifestyle.)

***Purpose:** Understand demographics and routines.*

Q2. Are you comfortable sharing your mental health diagnosis or concerns?

(Follow-up)

- When were you diagnosed?
- How did you realise something was wrong?
- Who diagnosed you?

***Purpose:** Understand conditions.*

Possible conditions: Anxiety disorders, Depression, OCD, Bipolar disorder, PTSD, ADHD, Autism, Panic disorder, Eating disorders, Personality Disorders, Stress-related conditions

Q3. What symptoms or struggles do you experience because of your condition?

Probe:

Physical symptoms: Fatigue, Sleep problems, Panic attacks, Appetite changes, Headaches, Rapid heartbeat

Mental symptoms: Overthinking, Isolation, Emotional numbness, Fear, Low motivation

Section 2: Current Mental Healthcare Experience

Q4. Can you describe your experience seeking mental health support?

Interview Questionnaire for Mental Health Patients – SithCare Channeling App

Probe: Easy or difficult? Cost? Travel? Stigma?

Q5. What challenges do you face when booking appointments? (based on personal experience)

Probe: Long waiting time, not knowing suitable specialists, Travel, and costs

Q6. Have you ever delayed seeking help? Why?

Q7. How comfortable are you discussing mental health openly?

Probe: Family? Friends? At work? Society? At University?

Experience-based Answer

Insights: Fear of Judgement, Need for anonymity, selective sharing, trustworthiness, social pressure by various environments, Isolation, Emotional fatigue, or might openly talk about it.

Section 03: Technology Usage & Digital Behavior

Q8. Do you currently use any apps/websites related to mental health?

Ex: Meditation apps, Appointment apps, Support groups

(Follow Up) What do you like/dislike about them?

Q9. What frustrates you about existing healthcare or appointment systems? (Any improvements?)

Q10. If a mental health app existed, what would make you trust it?

Possible themes: Privacy, Verified doctors, Anonymous use, Security

Section 4: Therapist Matching (Aimed at therapist rec. Qs.)

Q11. When looking for a therapist, what information matters most?

Interview Questionnaire for Mental Health Patients – SithCare Channeling App

Ex: Gender, Language, Experience, Specialization, Online sessions, Religion/culture, Personality

Q12. What questions should an app ask before recommending a therapist?

Insights: Symptoms, Severity, Session preference, Gender Preference, Language, Concern Category, Privacy Concerns, Budget Concerns, previous diagnosis, etc.

Section 5: Emergency & Crisis Situations

Q13. Have you experienced a mental health crisis? Only if comfortable

Ex: Panic attack, Severe depression, Suicidal thoughts, Breakdown

Q14. During emergencies, what support would help you most?

Ex: Immediate call, Emergency appointment, Chat support, Location sharing

Q15. Would you use emergency same-day booking? Why?

Section 6: Anonymous Community & Peer Support

Q16. Would anonymous support groups help you? Why?

Q17. What concerns would you have about anonymous communities?

Ex: Wrong advice, Privacy, Judgement, misinformation concern, reporting tools.

Section 7: Privacy & Security (As mental health data is sensitive)

Q18. What privacy concerns would stop you from using a mental health app?

Q19. Would anonymity encourage you to seek support earlier?

Interview Questionnaire for Mental Health Patients – SithCare Channeling App

Final Question (Ending)

Q20. Is there anything you wish healthcare providers or technology developers understood better about mental health patients?

Closing Statement

“Thank you for sharing your experiences. Your insights will help us design a more accessible and supportive mental health application for people who may face similar challenges.”
